English

EXPERIENCE

SCALETOOLS | FULL STACK DEVELOPER (JUNIOR)

Apr 2021 - Jul 2022 | Kharkiv, UA

- Implemented reusable UI components, and landing pages for various products, NFT, and business cards according to the provided by clients designs.
- Integrated the client side with the backend, developed custom API endpoints and logic for it, optimized the existing code on both sides.
- Collaborated with the team lead and implemented new improved (in terms of security) import schemas for products.
- Implemented unit and integration tests with Mocha and Chai, and reorganized the structure of the tests in the project.
- Integrated the collected data about NFC label taps (products, business cards) with Zoho and Google Analytics to help internal stakeholders to better understand the current market.
- Worked in a team of 4 developers and 1 QA on the [web platform](#) that provides various solutions for producers in protecting their physical and/or digital products' authenticity and real-time traceability. With the usage of modern technologies such as IoT and Blockchain.

SCALETOOLS | RUBY ON RAILS DEVELOPER (TRAINEE)

Dec 2020 - Mar 2021 | Kharkiv, UA

- Implemented UI components using HTML, CSS, ERB and Bootstrap.
- Identified issues with front-end and back-end code and rectified them to remove bugs.
- Worked in a team of 4 developers, 2 DevOps, and 2 QA on the web platform that acts as a cloud broker by providing users the ability to deploy and run their intensive software using cloud technologies.
