PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Junior)

ScaleTools UA

Apr 2021 – Jul 2022 | Kharkiv, Ukraine

- Worked on the web platform that provides various solutions in protecting companies' physical and/or digital products' authenticity as well as giving them the opportunity for real-time traceability with the usage of modern technologies such as IoT and Blockchain.
- Implemented reusable UI components and landing pages for various products, according to the client's designs.
- Integrated backend API with the frontend and other platforms such as Zoho analytics, improved the code on both sides by:
 - Optimizing database requests.
 - Implementing unit, and integration tests, and reorganizing the structure of the tests inside the project.
- Collaborated with other departments of the team QAs, Mobile App Developers, and Designers to maintain product quality and productivity:
 - Tested mobile applications
 - Took part in designing the app's UI

Ruby on Rails Developer (Trainee)

ScaleTools UA

Dec 2020 – Mar 2021 | Kharkiv, Ukraine

- Worked on the web platform that acts as a cloud broker by providing users the ability to deploy and run their intensive software using cloud technologies.
- Implemented UI components using HTML, CSS, ERB, and Bootstrap.
